FRESH

ENZYMATIC DEODORANT

An all natural deodorant that absorbs sweat and fights against odor causing bacteria. It is a non-toxic alternative to traditional deodorant. Gentle enough to apply directly after shaving or waxing. Soothing for sensitive or irritated skin.

KEY INGREDIENTS

ORGANIC HEMP CBD

Has the ability to regulate both sebum and sweat production. Interacts with the lymphatic system that is highly concentrated in the underarm.

SACCHAROMYCES FERMENT

An active enzyme that effectively fights against odor.

KAOLIN CLAY

Detoxifies by pulling toxins from the skin, helping to neutralize odor. Absorbs excess sweat and oil.

ZINC RICINOLEATE

Traps and absorbs odor molecules.

APPLICATION: *In slow and gentle swiping motions, apply to entire underarm area with enough pressure to allow for uniform skin contact*
