

BODY CREAM

Directions for use: Quench dehydrated and dry skin with Butter Up Body Cream. A blend of shea, cocoa, and mango seed butters soften, nourish, and protect from environmental aggressors. For dry to very dry skin, apply after a bath or shower, lightly pat dry leaving a little moisture on your skin. Apply and gently massage a thin layer onto skin, re-apply as needed.

KEY INGREDIENTS

ORGANIC HEMP CBG

Reduces and acts as a natural analgesic for pain, chronic and acute inflammation. May help to reduce blemishes, purify pores, promotes secretion of skin lipids (or oils) to improve hydration and barrier function from within, and assist with skin cell turnover.

ORGANIC SHEA BUTTER

Contains fatty acids and vitamins beneficial for softening skin and anti-inflammatory properties that may be related to eczema, psoriasis, and dermatitis.

ORGANIC COCOA BUTTER

Ability to protect skin barrier, hold moisture and maintain and improve skin elasticity due to it's high fatty acid content. This may improve wrinkles and the appearance of scars.

ORGANIC MANGO BUTTER

Contains vitamin A which stimulates healthy skin cell turnover. Improves skin's texture and elasticity, and has been shown to protect the skin against damage caused by UV radiation.
